

Redmine - Defect #17424

Custom field translation

2014-07-08 12:57 - Piotr Pawłowski

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Custom fields	Estimated time:	0.00 hour
Target version:		Affected version:	2.3.3
Resolution:	Invalid		
Description			
Recently I created Custom Field named 'Project Reference Number' to project (list). During timelog export to csv I am receiving column name with 'translation missing: en.Project Reference Number'. Where in Redmine I can add translation for Custom Fields? I am using Redmine 2.3.3.stable .			

History

#2 - 2014-07-08 14:02 - Piotr Pawłowski

Environment:

Redmine version	2.3.3.stable
Ruby version	2.0.0-p247 (2013-06-27) [x86_64-linux]
Rails version	3.2.13
Environment	production
Database adapter	Mysql2
Redmine plugins:	
redmine_backlogs	v1.0.5
redmine_banner	0.0.9
redmine_code_review	0.6.3

Output from production.log:

```
Started GET "/time_entries/report?utf8=%E2%9C%93&criteria%5B%5D=cf_40&f%5B%5D=spent_on&op%5Bspent_on%5D=lm&f%5B%5D=&columns=month&criteria%5B%5D=user" for 123.456.789.012 at 2014-07-08 13:56:26 +0200

I thought that Custom Fields, generating time log and exporting it to csv is a core Redmine feature. Which plugin can affect translation of Custom Field?

Toshi, I am sorry, but I am not a ruby dev. I do not see anything suspicious in presented output from production.log . Could you please point me which plugin cause the problem with translation?
Thank you in advance.

Please use forum for questions.

I think some of your plugins override Redmine methods.
