Description

In the select box to move an issue, you have all projects on the same level.

It's hard to see the sub projects, if you hve several sub-projects with the same name, but not the same project.

I think the sub project view in the select box is now perfect as it is. Someone any ideas how to improve?

I think fixed by r2304.

Thank you, it's already ok for my need, I've forgotten I've opened this issue.

BTW, thanks a lot for your work on Redmine ;-)
