Description			
I called it as ezFAQ plugin.			
ezFAQ plugin 0.0.1			
This is a FAQ management plugin for Redmine = Feature			
1. Ask question and request a user to answer it.			
2. FAQ is grouped by categories.			
3. FAQ's modification has history logs.			
=== Roadmap			
0.0.2 -> Send notify email to the assigned user who should answer the question.			
0.0.3 -> Generate pdf version FAQ document including all valid FAQ.			
The github page is: http://github.com/zouchaoqun/ezfaq/tree/master			
And the Public Clone URL is: git://github.com/zouchaoqun/ezfaq.git			
Jean-Philippe, would you like me to add some introduction on redmine's wiki as other plugins do?

Hi there,

At first: shouldn't this message been placed in the forums instead of the issue-tracker?

Besides that great plugin (especially considering it's versionnumber). Imo this is a great extension to Redmine.

Is there any place where I can leave some comments/issues in English-language??

- *Category set to Plugin API*

- *Status changed from New to Closed*

Thanks for your contribution to Redmine.

You should now be able to edit the wiki.
