

Redmine - Defect #1753

.tar.gz file does not contain the proper permissions

2008-08-05 22:09 - Richard Hurt

Status:	Closed	Start date:	2008-08-05
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Fixed		
Description <p>The process that creates the .tar.gz file is broken. For some reason the archive is missing the execute permissions for the following files:</p> <ul style="list-style-type: none">• public/dispatch.cgi.example• public/dispatch.fcgi.example• public/dispatch.rb.example• script/about• script/breakpointer• script/console• script/destroy• script/generate• performance/benchmark• performance/profiler• script/plugin• script/process/reaper• script/process/spawner• script/process/spinner• script/runner• script/server <p>I spot checked several archives (0.4.2, 0.6.4, 0.7.3) and none of them had the proper bits set for these files. It should be a fairly simple and low risk fix.</p>
