Redmine - Defect #17533

Attach File Broken in Chrome

2014-07-22 21:18 - Niall Stallion

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Attachments		**Estimated time:**	0.00 hour
Target version:				
Resolution:	Duplicate		**Affected version:**	2.4.2

Description

I'm not sure what update caused this to happen. I did not update Chrome, but did accept a Java update recently. I can't imagine this has anything to do with the problem.

When I try to attach a file to a redmine issue, the interface seems to bug out. I also cannot attach more than one file to an issue, and cannot attach anything in an update.

The interface looks normal before the attachment:

  RedmineAttachments1.jpg
Then once you attach the file, this happens:

  RedmineAttachments2.jpg
I was actually only able to post this through IE because I'm encountering the same bug through Chrome on the redmine.org website. Everyone in my company using Chrome is having the same problem. What's going on?

I have the same issue, but I can upload. When I delete the second one it doesn't upload twice.

Did this just start happening for you within the past couple of days as well?

- Status changed from New to Closed

- Resolution set to Duplicate

Bug in Chrome.

#5 - 2014-07-22 23:00 - Joshua Kincheloe

This can't be closed. This has been this way since I installed 2 weeks ago.

What version of Redmine do you use? Please confirm that you are using Redmine 2.5.2, not 2.5.1.

#7 - 2014-07-23 12:05 - Jérôme BATAILLE

Hi, we have Redmine V2.3.2 and some users experienced the problem.

#8 - 2014-08-01 10:48 - Jean-Baptiste Barth

There are high chances it's a duplicate of [#17151](#) as Etienne wrote. Fixes are included in both Redmine 2.4.6 and 2.5.2.

[Joshua Khoele](#): the original issue mentions Redmine 2.4.2, so please confirm you are in 2.4.6 or 2.5.2 where this should be fixed. If not, we can investigate the problem a bit more.

@Jérôme: you should upgrade your version as Redmine 2.3.x doesn't get updates anymore. Or maybe you could backport the patches in [#17151](#) at your own risk..

#9 - 2014-08-07 06:31 - Yannick Warnier

I have the same issue on 2.4.1 (will update soon, thanks for the report and the answer, guys)
