<b>Description</b>			
<p>Hi,</p> <p>I have one username whose login is msk. When i click on <a href="http://redmine-ip/users/msk">http://redmine-ip/users/msk</a> it shows information about the user.</p> <p>I then rename the username to krishna.ms and when i click on <a href="http://redmine-ip/users/krishna.ms">http://redmine-ip/users/krishna.ms</a> it throws a blank page.</p> <p>However when i type <a href="http://redmine-ip/users/124">http://redmine-ip/users/124</a> where 124 is the id of krishna.ms(I verified with the DB of redmine with users table too), the information is shown perfectly.</p> <p>How do we resolve this issue? Is there a way of mapping this?</p> <p>Thanks, Krishna M S</p>			

#### History

Hi,

I just checked it again. The problem is more with usernames containing a . For example krishna.ms does not work whereas krishna works.

Please let me know if there is a fix for this?

##### #2 - 2014-07-27 05:53 - Go MAEDA

Default Redmine does not provide such pretty URLs for user pages. Maybe you have installed some pugin. If so, please contact to the author of the plugin.

##### #3 - 2014-07-28 06:32 - Krishna M S

Hi,

You are right. The issue was due to one of the plugins Wiking. After i updated the ticket, it works fine.

Thanks for your support.

Regards,  
Krishna M S
