

Redmine - Defect #17664

Project-specific custom fields should also be searchable when showing all issues - if the user only has this project assigned

2014-08-12 13:50 - Kevin Palm

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Custom fields	Estimated time:	0.00 hour
Target version:		Affected version:	2.4.4
Resolution:			
Description			
<p>Currently the user cannot search on a searchable custom field in the complete issue list ([redmineUrl]/issues). Generally speaking, this is normal, since the mentioned custom field is project-specific and is only displayed if listing issues of the project ([redmineURL]/projects/[project]/issues) But if the project of this field is the only project a user can access, than the project-specific fields should also be searchable... Currently, in this case, it is difficult for the user to understand when he can and when he can't search on the custom-field...</p>
