<b>Resolution:</b>	Invalid		
<b>Description</b>			
<p>I wanted to import issues from JIRA to redmine. I installed this plugin over here- <a href="http://www.redmine.org/plugins/csv_import_issues">http://www.redmine.org/plugins/csv_import_issues</a> I don't know what is to be done next. Can anyone please help me with it.</p> <p>Also is there any other way I can import the following in redmine from JIRA :-</p> <ul style="list-style-type: none"><li>- Project</li><li>- Issues</li><li>- their title, descriptions, dates, comments and their versions.</li><li>- their time log (optional)</li></ul>

Rather than just commenting and marking tasks invalid, the person must either generate ticket and give a link to its user.
