

Redmine - Feature #1773

internal/external documents

2008-08-12 13:33 - Jozef Menda

Status:	New	Start date:	2008-08-12
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Documents	Estimated time:	0.00 hour
Target version:			
Resolution:			

Description

it would be very useful to be able to mark documents as internal(private) with respective right for a role to view them,like issues in feature request [#337](#)

this feature request is basically a specific subrequest of issue Feature [#1086](#),which would be, so to speak a final goal. if it's considered a duplicate,accept my humble apologies:)
