- Status changed from New to Needs feedback
- Assignee set to Jean-Baptiste Barth
- Resolution set to Cant reproduce

I cannot reproduce with the steps you describe on Redmine 2.5.2. Maybe there's something else involved?

Can you please see [SubmittingBugs](#) and give the requested informations ? Also if you have a more detailed description of what to do to trigger the error (any option on the custom field except possible values? anything special on the project?)

#2 - 2014-09-07 10:39 - Victor Costache

The bug seems to be caused by one of the plug-ins installed in our Redmine (<http://projects.andriylesyuk.com/projects/scm-creator>). I am going to report the bug there since it is related to that plug-in.

So, this issue can be closed. Thanks.

#3 - 2014-09-07 13:05 - Jean-Baptiste Barth

- Status changed from Needs feedback to Closed

Thanks for the feedback :)
