

Redmine - Feature #17919

Not seeing List Of Associated Subtasks in a parent Issue

2014-09-19 18:42 - K Dub

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	REST API	Estimated time:	0.00 hour
Target version:			
Resolution:	Invalid		

Description

Is there a restful API call where I can view all the associated subtask ids?

I need to know how many and which subtasks are assigned to an issue.

Please advise if this will be feature that will be developed or if it already exists? If so, can you share how to access this information?

History

#1 - 2021-08-08 06:25 - Go MAEDA

- Status changed from New to Closed
- Resolution set to Invalid

You can get subtasks by adding an 'includes=children' parameter. See [Rest_Issues](#) for details.
