

Redmine - Defect #1793

Estimated time in issue's journal (history) should be rounded to two decimals

2008-08-15 22:33 - Mischa The Evil

Status:	Closed	Start date:	2008-08-15
Priority:	High	Due date:	
Assignee:		% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:	0.8	Affected version:	0.7.3
Resolution:	Fixed		
Description When I change the estimated time of an issue (it should be done on an existing issue, otherwise no journal is being written) to let's say 20min I expect the value of estimated time to show up in the journal (history) as a integer rounded with two decimals (0.33) instead of an unrounded number like 0.3333333333333332981762708868700428865849971771240234375. I like Redmine's precision but I guess that this is a bit to much :-)
