

Redmine - Patch #17947

Mirror relation

2014-09-24 17:49 - Damien Viennot

Status: New	Start date:
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category: Issues	Estimated time: 0.00 hour
Target version:	
Description	
<p>Several posts on the forum are about the need of mirroring issues, ie auto updating the status of related issue. This is an attempt to achieve this result by creating a new relation (two in fact...) called mirror.</p> <p>The drawback is that callbacks are not properly handled : these patch are not a finished product.</p> <p>Provided patches are for the 2.3.0 version, but can easily be transposed for the 2.4 or 2.5 series.</p> <p>Files to be patched : app/models/issue.rb app/models/issue_relation.rb config/locales/fr.yml (ok, for french people....)</p>
