

Redmine - Defect #17957

Update of issue checklist delete and insert data again

2014-09-25 09:31 - Asif Noor

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:		Affected version:	2.4.2
Resolution:	Invalid		

Description

Hi,

I have started using issue_checklists plugin and it is simple and great feature addition to Issue.

While testing i noticed that, while updating the issue, when i check/uncheck the checklist item, it is deleting all checklists for that issue and reinserting again. Why is this so?
