Resolution:	Fixed		
Description			
<p>This will help to personalize issues list with css depending on the sort order.</p> <p>For example, if issues are sorted primarily by parent_id, we want to emphasis root issues (issues with no idnt-* css class)</p> <p>The css class could be helpful on the table html tag</p> <p>We will perhaps provide a patch.</p>

Revision 13425 - 2014-10-04 11:36 - Jean-Philippe Lang

Adds css classes to get sort order on the issue list (#17993).

History

#1 - 2014-10-04 11:38 - Jean-Philippe Lang

- Category changed from Issues to UI
- Status changed from New to Closed
- Assignee set to Jean-Philippe Lang
- Target version set to 2.6.0
- Resolution set to Fixed

Added in r13425. You'll get 2 classes: one for the attribute (eg. sort-by-created-on) and one for the order (sort-asc or sort-desc).

#2 - 2014-10-06 14:05 - Jérôme BATAILLE

It's great that it will be included in the 2.6, that we are looking forward to see in production.

Thanks a lot !
