I've just tested this with the trunk at [r1745](#). I found no problems inserting an amount of 100 hours as spent time using the block displayed in the update-issue view.

Can you try to enter a certain amount [using other notation](#) like 100.00?

- Target version deleted (0.8)

The target version field has to be set when it will actually be a part of the target release.

I'm not able to reproduce this problem. Please give the information requested in [SubmittingBugs](#).
