

Redmine - Feature #18027

Notification when deleting an issue

2014-10-03 16:10 - claude g

Status: New	Start date:
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category: Email notifications	Estimated time: 0.00 hour
Target version:	
Resolution:	
Description	
<p>Currently, issue deleted are ... deleted :-)</p> <p>To avoid to lost something, it would be great to have a final notification (same notifications rules + Redmine administrators). This notification should have the full history instead of final deletion step. I don't know how to handle attachments (attached or not - not so important).</p> <p>If you prefer to have a 'soft delete' like #1380 or #6666, this feature is useless and you can cancel it. But please, try to handle this deletion differently soon.</p>

+1 if #1380 is not being implemented

- Duplicated by Feature #25779: cannot know who delete issue added

#8 - 2021-08-19 14:55 - Alexander Ryabinovskiy

I think, it is very important feature.

We have 10 "managers" in project + 3 administrators. And I don't know, who and when deleted the issue. All info about issue dissapeared, even in "activity page"!
