

Redmine - Defect #18032

Continued numbered lists (#_) are not working as the textile syntax expects

2014-10-04 23:06 - Michel Behr

| | |
|--|----------------------------------|
| Status: New | Start date: |
| Priority: Normal | Due date: |
| Assignee: | % Done: 0% |
| Category: Text formatting | Estimated time: 0.00 hour |
| Target version: | Affected version: 2.5.2 |
| Resolution: | |
| Description | |
| 1. Item 1 | |
| Some text | |
| #_ Item 2 (counting continued from the last Item, with the #_ marker) | |
| Some text | |
| #_ Item 3 (counting continued from the last Item, with the #_ marker) | |
| Each item should be rendered as 1, 2, 3, but this is not happening. | |

Textile also specifies starting numbering from specified number like this:

!# Item 1 (ignore the exclamation mark)

random text

!#4 Item 2

Result should look like this:

1. Item 1

random text

4. Item 4

hello, i was confronted with the same problem but i think, i managed to solve it (with space on the following line after "#"; " _" means a space, because otherwise it would not display it riht):

written:

first item

_description of the first item

continuing the list with item 2

this is item 2.2.

if you want a break between for between example 1. and 2. (please mind, " _" is a space the linebreak is " ");

first item

_

second item

displays:

1. first item

description of the first item

2. continuing the list with item 2

1. this is item 2.2.

if you want a break between for example between 1. and 2. (please mind, " _" is a space the linebreak is " "):

1. first item

2. second item

i hope its not too late (and sorry i had to correct it several times), cheers
