

Redmine - Defect #18119

Thumbnail image path without HTTPS

2014-10-17 01:44 - Filou Centrinov

| | | | |
|---|--------------------|--------------------------|-----------|
| Status: | Closed | Start date: | |
| Priority: | Normal | Due date: | |
| Assignee: | Jean-Philippe Lang | % Done: | 0% |
| Category: | Text formatting | Estimated time: | 0.00 hour |
| Target version: | 2.6.0 | Affected version: | 2.5.2 |
| Resolution: | Fixed | | |
| Description Thumbnails created with "{{thumbnail(image.png)}}" are always generated with absolute HTTP-path, even if the Redmine runs with HTTPS. Solution: If thumbnail path had been relative, we wouldn't have this problem. (Like thumbnails from attachments.) Environment: Redmine version 2.5.2.stable Ruby version 2.1.3-p242 (2014-09-19) [x86_64-linux] Rails version 3.2.19 Environment production Database adapter Mysql2 | | | |
