Redmine - Patch #18209

Add e-mail notification option: Tracker updated

2014-10-27 15:24 - Martin Cizek

Status:	New		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Email notifications		**Estimated time:**	0.00 hour
Target version:				

Description

The "global" email notifications settings (Administration -> Settings -> Email notifications) currently allow to specify the following issue updates to be watched by users who have chosen to watch "any events on...":

```
[ ] Issue updated
    [x] Note added
    [x] Status updated
    [x] Assignee updated
    [x] Priority updated
```

We suggest to add "Tracker updated", as we consider it a substantial event for certain people (e.g. a customer willing to know whenever a Bug is changed to a Feature, but don't want to be spammed by issue reassignments). The new 'Issue updated' action notifications would be:

```
[ ] Issue updated
    [x] Note added
    [x] Status updated
    [x] Assignee updated
    [x] Priority updated
    [x] Tracker updated
```

This update would be especially beneficial for Event notifications plugin users, who are able to set these standard notification options also per-user and per-project.

The patch against current trunk (r13520) is attached; if there is anything we should improve, please let us know.

P.S. I've noticed this feature is similar to #16362, where assignee change was added.

(thanks to Sandra Tatarevicova, sponsored by Orchitech Solutions)
