Target version:	
Resolution:	
Description	
<p>I wanted to change elements of default <u>my page</u> site.</p> <p>I have done this by editing:</p> <pre>app/controllers/my_controller.rb</pre> <p>and changing:</p> <pre>DEFAULT_LAYOUT</pre> <p>Constant</p> <p>I think that it will be better to move it somewhere to configuration file.</p> <p>It will be preserved eg. after update process</p> <p>What do you think?</p>
