Description

I think a button/link to quote other members on forums is easily one of the most used features that everyone takes for granted. Would love to see this feature with the name of the user you're quoting above the text.

This would be great - I have users quoting eachother with pre tags etc and it gets quite messy.

#2 - 2008-08-28 18:38 - Eric Davis

+1 I fake out the quotes myself using > and typing out the header by hand. If it worked the same as the quoting in the issue comments, that would be great.

#3 - 2008-08-28 20:53 - Jean-Philippe Lang

- Status changed from New to Closed

- Target version set to 0.8

- Resolution set to Fixed

Committed in [r1772](). Works the same as issue comments quoting.
