

Redmine - Feature #18255

Where can i get a guide document for Redmine code?

<b>Description</b> Hello All,  I have been using Redmine since few months, and must tell, it is a fantastic tool to work with.  But, there are few requirements on our side, that demands bit modification in source code. For example, i studied the code and found "controller_issues_new_before_save" but i could not find where this hook was created before using it.
