Redmine - Defect #18269

Timelog CSV export missing tracker name and issue name

2014-11-03 18:55 - Henning Kröger

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:	Jean-Philippe Lang		**% Done:**	0%
Category:	Time tracking		**Estimated time:**	0.00 hour
Target version:	2.6.1			
Resolution:	Fixed		**Affected version:**	2.6.0

Description

If I export timelog entries from the tab "Details" to CSV, the tracker name and issue name are no longer available in the exported file. The CSV-column "Issue" contains only the issue number with hashtag. In previous versions (tested up to Redmine 2.5.2) it contained always the tracker number followed by the issue id and then the issue name (just like displayed in the table of the view). It makes no difference if all columns are selected for export or not.

My main testing environment:
Redmine version   2.6.0.stable
Ruby version   2.0.0-p481 (2014-05-08) [x86_64-linux]
Rails version   3.2.19
Environment   production
Database adapter   Mysql2

Of course exporting the timelog data is important for some companies like ours :/

If I can help with any additional information, i would be happy to do so.

Associated revisions

Revision 13562 - 2014-11-05 16:23 - Jean-Philippe Lang

Time entries CSV export should include the tracker and subject of the issue (#18269).

Revision 13630 - 2014-11-22 11:35 - Jean-Philippe Lang

Merged r13562 (#18269).
