Category:	Issues		**Estimated time:**	0.00 hour
Target version:				
Resolution:			**Affected version:**	2.6.0

Description

After changing a feature to a task, the time spent on it is no longer displayed.
However, on the global "Spent Time" page, the timepost is still displayed as assigned to that task.

Reproduction

1. Have a Feature with time spent on it
2. Change the Feature to a Task

The Task will now appear to have no time spent on it. The field reads:

```
    Spent time:     -
```
