Target version:		Affected version:	
Resolution:	Fixed		
<p>Description</p> <p>r13535 introduces a second and different IssueStatusesControllerTest#test_destroy_should_block_if_status_in_use (source:/trunk/test/functional/issue_statuses_controller_test.rb@13569#L110) while a method with that exact name is already defined at source:/trunk/test/functional/issue_statuses_controller_test.rb@13569#L99.</p> <p>If I understand the code correctly, I think naming them respectively:</p> <ul style="list-style-type: none">• IssueStatusesControllerTest#test_destroy_with_default_status_id_should_block_if_status_in_use and• IssueStatusesControllerTest#test_destroy_with_status_id_should_block_if_status_in_use <p>better describes the tests intentions.</p> <p>I'm not entirely sure if this is a real problem or not, but I thought it might be worth an issue.</p>			

Associated revisions

Revision 13575 - 2014-11-08 12:02 - Jean-Philippe Lang

Fixed duplicate test names (#18306).

History

#1 - 2014-11-08 12:03 - Jean-Philippe Lang

- Status changed from New to Closed
- Assignee set to Jean-Philippe Lang
- Resolution set to Fixed

Fixed in [r13575](#), thanks for poiting this out!
