

Redmine - Defect #18322

BitNami Redmine crashes all the time

2014-11-11 19:18 - E S

Status:	Closed	Start date:	
Priority:	Urgent	Due date:	
Assignee:		% Done:	0%
Category:	Performance	Estimated time:	0.00 hour
Target version:		Affected version:	2.6.0
Resolution:	Invalid		
Description			
First off I have no clue why but redmine requires https to work, not really a problem but I suspect it may have to do with my real issue. Every time I go to do something with redmine like create a project or change a setting or create an issue the connection times out. I can navigate the website fine it's just if you try to create anything it times out when you hit create.			

History

#1 - 2014-11-11 21:56 - Jean-Philippe Lang

- Status changed from New to Closed
- Resolution set to Invalid

Sorry, no technical support here in the issue tracker.
