

Redmine - Defect #18346

Extended Field Values that are nil produce an error

2014-11-14 01:22 - Ivo Steinmann

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:		Affected version:	2.6.0
Resolution:	Invalid		
Description			
If an extended field is not used by a tracker but is enabled in the issue overview, then an error is produced because the value of that field is nil			
I appended a possible patch as file			
In File: lib/extended_queries_helper_patch.rb:			
<pre>if !column.custom_field.respond_to?(:visible_by?) column.custom_field.visible_by?(issue.project, User.current) value = issue.custom_field_values.detect{ value value.custom_field_id == column.custom_field.id } + if value.nil? + return nil + end h(show_value(value)) else</pre>			

History

#1 - 2014-11-14 01:31 - Mischa The Evil

- Status changed from New to Closed
- Resolution set to Invalid
