

Redmine - Patch #18390

Better RTL css for the system

2014-11-20 00:52 - Yehuda Deutsch

<b>Status:</b>	Closed	<b>Start date:</b>	
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	UI	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	3.0.0		
<b>Description</b> <p>Some issues might still exist, especially the issue of inline CSS used in too many places, but this one provides a pretty good option for now.</p> <p>Notice: This patch is mainly a clone of application.css with RTL overrides, but it is better than before and there is more to come.</p> <p>We originally worked on the 2.4.3 version of application/rtl.css, but I fitted it to meet the master branch version.</p> <p>File: public/stylesheets/rtl.css</p> <p>Branch: master</p> <p>Credit: <a href="#">Elad Shechter</a> @ <a href="#">Walla!</a></p> <p>He did it on work hours so I thought credit is in place.</p> <p>RTL users, please try it out and notify me of anything.</p>
