

Redmine - Patch #18390

Better RTL css for the system

2014-11-20 00:52 - Yehuda Deutsch

Status: Closed	Start date:
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category: UI	Estimated time: 0.00 hour
Target version: 3.0.0	

Description

Some issues might still exist, especially the issue of inline CSS used in too many places, but this one provides a pretty good option for now.

Notice: This patch is mainly a clone of application.css with RTL overrides, but it is better than before and there is more to come.

We originally worked on the 2.4.3 version of application/rtl.css, but I fitted it to meet the master branch version.

File: public/stylesheets/rtl.css
Branch: master

Credit: [Elad Shechter](#) @ [Walla!](#)
He did it on work hours so I thought credit is in place.

RTL users, please try it out and notify me of anything.
