Description	
<p>Ordered lists look like this at the moment:</p> <ol style="list-style-type: none">1. Masteritem 1<ol style="list-style-type: none">1. subitem 12. subitem 23. subitem 32. Masteritem 2 <p>It would be nice if they would look like this:</p> <ol style="list-style-type: none">1. Masteritem 1<ol style="list-style-type: none">1.1. subitem 11.2. subitem 21.3. subitem 32. Masteritem 2 <p>Of course, this should be configurable globally and per project.</p>

#3 - 2015-02-26 12:29 - Wim DePreter

I don't think this should be a global setting, but another wiki-syntax

f.e.

```
# item 1
## subitem 1.1
## subitem 1.2
## subitem 1.3
# item 2
```

2022-05-25

subitem 2.1
subitem 2.2
subitem 2.3

gives

1. item 1
 1. subitem 1.1
 2. subitem 1.2
 3. subitem 1.3
2. item 2
 2.1. subitem 2.1
 2.2. subitem 2.2
 2.3. subitem 2.3

#4 - 2015-02-27 07:51 - Andrey Evdokimov

Wim, this syntax doesn't work.
