

Redmine - Defect #1841

Include both first and last name when sorting by users

2008-09-02 10:17 - Artem Vasiliev

Status: Closed	Start date: 2008-09-02
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category: Issues	Estimated time: 0.00 hour
Target version: 0.9.0	Affected version:
Resolution: Fixed	
Description	
<p>First, user dropdown sorting (e.g. 'Assigned to' field in Edit Issue screen) is far from obvious. I found explanation in #507 just occasionally. Let's sort by (first name, last name) pair. This will improve user dropdown usability because it will be consistent with the way user name is displayed (and choosing user dropdown items by keyboard will start to work).</p> <p>Next, sorting by just last name doesn't scale: even our small company now has two people with the same last name and issues list sorting by Assigned To looks just broken for them (see attachment).</p>

Revision 2351 - 2009-02-01 21:56 - Jean-Philippe Lang

Include both last and first name when sorting issues by assignee (#1841).

History

#1 - 2008-09-02 18:27 - Eric Davis

My patch on issue #1708 allows user sorting to be customized by the admin. It includes options to sort by first name, last name, or login name.

Uhh, that's not what we want actually. We need it to be sorted by pair - like
ORDER BY firstname, lastname

#4 - 2008-09-04 17:19 - Artem Vasiliev

Patch is committed to http://github.com/artemv/redmine_tt/commit/3246d2bd8fed74c4ea0ac29e9c7dff74897395ac.
The part for issue list sorting is a hardcore hack however - making it right needs some multifield sorting support from Redmine first.

refined it a bit: http://github.com/artemv/redmine_tt/commit/7744181c5157ed3a8b18cdfd81f3b58d59742beb

#6 - 2008-11-10 21:17 - Karl Heinz Marbaise

- *Category set to Issues*

#7 - 2009-02-01 21:53 - Jean-Philippe Lang

- *Status changed from New to Closed*
- *Target version set to 0.9.0*
- *Resolution set to Fixed*

Fixed in r2351. Users are now sorted by last and first name.
