<b>Description</b>			
Hi Guys,			
Referring to <a href="#">RedmineReceivingEmails</a> - it is good to allow attach or exclude certain files (similar to .gitignore).			
Especially some senders have the email cert such as smime.p7s file is annoying and needs to be manually deleted.			
Thanks.

- Status changed from New to Resolved

Perfect, just saw this. Wonder how I missed this earlier.

Thanks.
