- File `application_helper.rb` patch added

DISCLAIMER: Firstly, I have only been using Redmine for a month now. Secondly, I have never touched Ruby before.

Attached is a patch I made for `redmine/app/helpers/application_helper.rb` that implements wiki links for "News" resources. I am not sure if it is 100% complete and/or accurate, but it seems to be working flawlessly on v0.9.0.

I hope it helps others looking to make wiki links to their news. :)

- Category changed from Wiki to Documentation

- Assignee set to Mischa The Evil

Superseded by #9600, implemented with r7840 for Redmine version#36. This commit remains to be documented though.
