Target version:		Affected version:	2.6.0
Resolution:	Invalid		
Description			
<p>Hi huys, i have installed redmine on my Windows Server 2012. I have installed bitnami-rubystack-2.0.0-23 and then as a module bitnami-redmine-2.6.0-1-module-windows-installer</p> <p>I am having big troubles with DMSF, because i am not able to install it. Everytime i place a folder at ../plugins the thin_redmine stoped working.</p> <p>Any help please, i would appreciate</p>
