Category:		Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Invalid		
Description			
I use this plugin to connect git and redmine: https://github.com/koppen/redmine_github_hook Whenever there is a commit to github, redmine keeps spitting out this line: No status matches commit_fix_status_id setting The rate of its appearance is every second, like it is in a loop. Anybody know how to fix/mitigate this? Thanks
