

Redmine - Feature #1870

Show progress towards the nearest version in the sidebar

2008-09-08 16:34 - Marcin Kasperski

Target version:			
Resolution:			
Description			
It would be nice, if minimized version of the version progress tracker (just version name, percentage, finished/remaining count and graphical bar) could be shown in the redmine sidebar (at least on the overview page and the issues list page, but maybe also on other pages).
