

## Redmine - Feature #18831

### Support Automatic Assigning of Issues on Status Change

2015-01-13 22:04 - Chris Bush

<b>Status:</b> New	<b>Start date:</b>
<b>Priority:</b> Normal	<b>Due date:</b>
<b>Assignee:</b>	<b>% Done:</b> 0%
<b>Category:</b> Issues workflow	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b>	
<b>Resolution:</b>	
<b>Description</b>	
<p>I'd like the ability to update the "Assigned To" field to certain macros when an issue status is updated to certain statuses. For example, if I change the status to something like "Awaiting More Information," I'd like the Assigned To field to automatically be updated to the reporter (perhaps as a &lt;&lt;reporter&gt;&gt; macro, similar to &lt;&lt;me&gt;&gt;). This could be accomplished by adding a field to the Issue Statuses interface in administrative settings.</p>

#### History

##### #1 - 2015-01-21 23:29 - Moritz Koehler

try this plugin

<http://www.redmine.org/plugins/custom-workflows>

the code would look like.

```
self.assigned_to_id = User.find_by_login("ChrisBush").id if status_id == 14
```

it runs great for me. Im using redmine 2.6
