Description When i add text to the "Comment" edit box on a wiki-edit page and press save button, the comment doesnt seem to have any effect. it isnt displayed.			

History

#1 - 2008-09-12 18:36 - Jean-Philippe Lang

You should see the comments on the page history, eg: <http://www.redmine.org/wiki/redmine/Overview/history>

#2 - 2008-09-12 19:35 - wurm stichig

ah ok :)
but if you change nothing but the comment, the history isnt updated and u cant see the comment there either.

I think you are misunderstanding "comment". The wiki's comment is a description on "what I changed in this wiki edit". You must be thinking like a blog comment, "I have something to say about this page".

#4 - 2008-09-13 11:13 - Jean-Philippe Lang

- Status changed from New to Closed
- Affected version (unused) deleted (0.7.3)
- Resolution set to Invalid
- Affected version deleted (0.7.3)

Eric is right. The feature you're looking for is not implemented. See request [#1087](#).

#5 - 2008-09-13 13:36 - wurm stichig

yeah ure right. got this wrong. thx
