

Redmine - Feature #18860

Replace awesome_nested_set gem with a custom implementation of nested sets

2015-01-16 07:29 - Mischa The Evil

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Third-party libraries	Estimated time:	0.00 hour
Target version:	3.0.0		
Resolution:	Fixed		
Description			
<p><i>This issue functions as a placeholder to make sure this change gets included on the changelog.</i></p> <p>The (functionality of the) awesome_nested_set gem, that is used for building trees of projects and issues, is replaced with a simple and more robust custom implementation of nested sets. This fixes several dead locks and/or nested set inconsistencies.</p> <p>This change is completed by Jean-Philippe Lang (I'll assign this issue accordingly) with the following related changesets: r13841, r13842, r13843, r13844, r13845 and r13846.</p>
