

Redmine - Defect #18912

Clicking on a Completed Version doesn't navigate to the Version

2015-01-20 19:09 - James H

<b>Status:</b>	New	<b>Start date:</b>	
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	Roadmap	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Affected version:</b>	2.6.0
<b>Resolution:</b>			
<b>Description</b> If you are using the roadmap and looking at the right bar: Check the option for "Show completed versions".  NOW: Clicking on a Completed Version doesn't navigate to the Version. It ends up re-navigating to the roadmap.  When you do not have the option for "Show Completed Versions" checked, then it navigates fine to any of the completed versions.

Edit:

Clicking on a version that is already completed on the right hand side bar navigates you to the specific line on the Roadmap page that has the completed version.  
Not sure if this was intended design.  
If so, I think a better method would be to just navigate straight into the version, instead of taking you to the version link on the same page.
