

Redmine - Defect #18917

Cannot reorder root issues

2015-01-21 01:03 - @ go2null

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:		Affected version:	2.6.0
Resolution:	Wont fix		

Description

I would like to order root issues relative to each other.

I can do the following for children nodes:

```
issue_a.move_to_right_of(issue_b)
```

However, the same code does not work for root issues, because they have different scopes (root_id).

```
# app/models/issue.rb
47:  acts_as_nested_set :scope => 'root_id', :dependent => :destroy

# lib/plugins/awesome_nested_set/lib/awesome_nested_set/model/movable.rb

9:      def move_possible?(target)
        self != target && # Can't target self
          same_scope?(target) && # can't be in different scopes
          # detect impossible move
          within_bounds?(target.left, target.left) &&
          within_bounds?(target.right, target.right)
      end
```

Environment:

Redmine version	2.6.0.stable
Ruby version	1.9.3-p484 (2013-11-22) [x86_64-linux]
Rails version	3.2.19
Environment	production
Database adapter	Mysql2

(initially posted as [How to order root issues?](#))

History

#1 - 2015-01-21 05:34 - Toshi MARUYAMA

- Status changed from New to Closed
- Resolution set to Wont fix

Redmine 2.6 uses awesome_nested_set 2-1-stable branch ([r13145](#)) and it has many bugs.
Redmine 2.6 workarounds these bugs.
For example: [source:tags/2.6.1/app/models/issue.rb#L1316](#) .

awesome_nested_set 2-1-stable branch is obsolete.
