

Redmine - Defect #18940

Filter by custom user field didn't work

2015-01-23 14:03 - Henry Auffahrt

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Custom fields	Estimated time:	0.00 hour
Target version:		Affected version:	2.5.3
Resolution:	Duplicate		
Description			
<p>I created a custom field in our tickets. This is a custom-user-field. So you can choose all people in a specific role.</p> <p>Now i want to use this custom field in my global ticket list as a filter. This didn't work, i can only choose myself.</p> <p>Maybe this is a because of the role concept from redmine? But we really need a functionality. If i add a user through firebug it works nicely.</p>

Please try this patch: [#9445#note-20](#)

It works for me but I would like some more people to test it.
