Category:	Issues	Estimated time:	0.00 hour
Target version:		Affected version:	2.6.0
Resolution:			
Description			
<p>When trying to bulk edit issues, I'm seeing that the Status drop down is not getting updated when I change the project. The project & tracker my issues start out in only has three statuses available. When I change the project & tracker, I should see seven statuses become available based on the project & tracker selected. However, I that drop-down is not getting updated.</p> <p>The status drop-down gets updated correctly if I updated the same issues individually.</p>
