Redmine - Defect #19059

Wrong number of issues for a version in the roadmap

2015-02-08 17:44 - Filou Centrinov

Status:	Closed	**Start date:**	
Priority:	Normal	**Due date:**	
Assignee:		**% Done:**	0%
Category:	Roadmap	**Estimated time:**	0.00 hour
Target version:			
Resolution:	Duplicate	**Affected version:**	2.6.1

Description

Using a version for an open project that contains also archived subprojects cause problems with the shown number of issues for that version.

Issues from archived subprojects are also counted in the roadmap version but this is very confusing because they are not listed. The roadmap should only count issues from open projects.

This is not the only case when you can see mismatch.

The number shown will not match listed issues also when subprojects are open and using different trackers. In such case, available trackers for select in sidebar comes from the project only, not subprojects. When subproject is using a tracker that the projects is not using, it will not be listed in sidebar, so can't be selected and you will see less issues on the list then indicated by counters.

Hi,
We also have the same issue with wrong numbers in roadmap counters, using 2.6.1.

Was this ever fixed in newer Redmine versions?
Thanks

+1

#6 - 2017-12-01 14:43 - Marius BĂLTEANU

This issue was fixed by r17051.

I don't think that a test is required also for this scenario, it is covered by the test from #19187 and I propose to close this ticket with resolution "Duplicate".

#7 - 2018-04-01 19:58 - Marius BĂLTEANU

- Status changed from New to Closed

- Resolution set to Duplicate

Fixed by r17051.

#8 - 2018-04-02 00:22 - Go MAEDA

- Is duplicate of Patch #27676: Information leak on roadmap and versions view added
