Description Good Afternoon, (at least on the west coast of North America it's afternoon ;)) On the redmine plugin webpage there is no link to the the plugin tutorial, but there is a broken link to the "Plugin API" Referring webpage: http://www.redmine.org/wiki/redmine/Plugins Needed link: http://www.redmine.org/wiki/1/Plugin_Tutorial I would have edited the page myself as it seemed to be in the wiki section, but I don't think I have access..... Also, Is there a tracker to the webpage? Or an open thread I'd be willing to volunteer to help with documentation and/or website maintenance. David
