Description			
Hi all,			
I found our names related to redmine in the following file on someone's github repo:			
https://raw.githubusercontent.com/jeccyzhao/web-cmatrix/7fc4333fca616e4cb678a69bc2c7a79ab91e1431/src/main/webapp/WEB-INF/template/app/home/entry/list.ftl			
That information is public anyway, but do any of you have an idea as to what this may be? There's no contact information in that users github page...			

History
