

Redmine - Defect #19151

Upgrade from 2.6 to 3.0 failed.

2015-02-23 04:02 - Feng Yu

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Database	Estimated time:	0.00 hour
Target version:		Affected version:	3.0.0
Resolution:	Invalid		
Description			
When I use this command ``bundle exec rake db:migrate RAILS_ENV=production``, it's crashed.			
Here is what I see:			
...			
root@iotdemo:/usr/local/redmine# bundle exec rake db:migrate RAILS_ENV=production			
rake aborted!			
ArgumentError: The scope body needs to be callable.

Tasks: TOP => db:migrate => environment
(See full trace by running task with --trace)
```
```

And when I change my ruby version to 2.2 use rvm, also this problem. Please help, thanks.

## History

### #1 - 2015-02-23 04:18 - Feng Yu

Edit: I find that some plugins not support, so remove.

But at last it throw an exception at start page.

```
Started GET "/redmine" for 106.36.219.240 at 2015-02-23 11:17:33 +0800

```
```

#2 - 2015-02-23 05:26 - Toshi MARUYAMA

- Status changed from New to Needs feedback

You still use plugins.

- redmine_sticky_messages
- redmine_wiki_extensions

#3 - 2015-02-23 14:38 - Feng Yu

Toshi MARUYAMA wrote:

You still use plugins.

- redmine_sticky_messages

Thank you, and you're right. I update the redmine_wiki_extensions and remove redmine_sticky_messages(still not working for redmine 3.0). It works.

But the activity page return 500 error. Here is my log:

```
Started GET "/redmine/projects/hawkeyes/activity" for 106.36.219.240 at 2015-02-23 21:36:15 +0800
Processing by ActivitiesController#index as HTML
Parameters: {"id"=>"hawkeyes"}
Current user: fengyu (id=3)
Completed 500 Internal Server Error in 25ms

NoMethodError (undefined method `[]' for nil:NilClass):
lib/redmine/activity/fetcher.rb:43:in `block (2 levels) in event_types'
```

```
lib/redmine/activity/fetcher.rb:42:in `each'
lib/redmine/activity/fetcher.rb:42:in `block in event_types'
lib/redmine/activity/fetcher.rb:40:in `select'
lib/redmine/activity/fetcher.rb:40:in `event_types'
lib/redmine/activity/fetcher.rb:30:in `initialize'
app/controllers/activities_controller.rb:37:in `new'
app/controllers/activities_controller.rb:37:in `index'
```

Please help. Thanks.

#4 - 2015-02-23 15:14 - Feng Yu

My god. Solved this issue. It seems that the plugin redmine_wiki_extensions still not working for redmine 3.0. Ah... Much plugins maybe not support redmine 3.0 for now.

I almost removed all plugins except redmine_agile(Only this plugins can work).

Thanks.

#5 - 2015-02-23 17:10 - Toshi MARUYAMA

- Status changed from Needs feedback to Closed

- Resolution set to Invalid

Thank you for your feedback.

#6 - 2015-03-11 12:58 - Fabien Camous

Hello,

Trying to install redmine_agile on redmine 3.0.0.stable.14068 get me the exact same error message as in the initial description, but it has been done on a fresh (new virtual machine) redmine installation without any plugin. I'm far to be an expert in ruby/rails so I'm a little bit lost. Any help appreciated. As a fallback, I might downgrade to redmine 2.6.x (I'm coming from redmine 2.3.x) :(

```
XXXXXX@XXXXXXXXXX:/usr/share/redmine# bundle exec rake redmine:plugins NAME=redmine_agile RAILS_ENV=production
rake aborted!
```

ArgumentError:

The scope body needs to be callable.

```
/usr/local/rvm/gems/ruby-2.2.0/gems/activerecord-4.2.0/lib/active_record/scoping/named.rb:143:in `scope'
/usr/share/redmine/plugins/redmine_agile/lib/redmine_agile/patches/issue_patch.rb:33:in `block in included'
/usr/share/redmine/plugins/redmine_agile/lib/redmine_agile/patches/issue_patch.rb:29:in `class_eval'
/usr/share/redmine/plugins/redmine_agile/lib/redmine_agile/patches/issue_patch.rb:29:in `included'
...

```

Environment:

Redmine version	3.0.0.stable.14068
Ruby version	2.2.0-p0 (2014-12-25) [x86_64-linux]
Rails version	4.2.0
Environment	production
Database adapter	Mysql2

SCM:

Subversion	1.8.8
Filesystem	

Redmine plugins:

no plugin installed

Fabien Camous wrote:

Trying to install redmine_agile on redmine 3.0.0.stable.14068 ...

Please contact plugin author.

#8 - 2015-03-11 13:41 - Fabien Camous

as I expected :/

feng yu was more lucky with ruby 2.1.5

Hello Fabien,

You may use redmine 3.0-stable, but with ruby 2.0.0, not higher.

We are working on compatibility of our plugins with the latest versions of ruby and rails, but now I can't say when we will release new versions which will be compatible with ruby 2.2.

Regards, Irina
support at redminecrm.com

#9 - 2015-03-11 13:49 - Feng Yu

Not only that. Finally I change ruby version to 2.2, it can also work.

Because I find here: <http://www.redmine.org/projects/redmine/wiki/RedmineInstall>

Redmine 3.0 can support ruby 2.2.

#10 - 2015-03-11 15:35 - Fabien Camous

agreed, however on redminecrm web site, they clearly said that only these versions of ruby are currently supported
: <http://www.redminecrm.com/projects/agile/pages/1>

Ruby: 1.8.7, 1.9.3, 2.0.0

Database: SQLite, MySQL, PostgreSQL, MS SQL

Feng Yu> can you confirm that you've succeed to make redmine 3.0.0 & redmine_agile plugin worked on ruby > 2.0 (in your case 2.1.5) ?

[...]

Feng Yu> can you confirm that you've succeed to make redmine 3.0.0 & redmine_agile plugin worked on ruby > 2.0 (in your case 2.1.5) ?

Of course. redmine_agile plugin can work very well.

```
Environment:
Redmine version      3.0.0.stable
Ruby version         2.2.0-p0 (2014-12-25) [x86_64-linux]
Rails version        4.2.0
Environment          production
Database adapter     Mysql2
SCM:
Git                  2.3.2
Filesystem
Redmine plugins:
redmine_agile        1.3.7
```

#12 - 2015-03-11 16:05 - Fabien Camous

:(

I'm sad, I was pushing an old version of redmine_agile (light) 1.3.5, downloaded latest one 1.3.8 make the setup working fine on ruby 2.2.0

thanks for pointing out that it was working for you and that I've double check then my version :)
many thanks for your help & really quick answers !

Toshi MARUYAMA wrote:

Thank you for your feedback.

when i try to run rake redmine:plugins:migrate RAILS_ENV=production
redmine_re plugin i get the following error

ArgumentError: The scope body needs to be callable.
C:/Sites/redmine/plugins/redmine_re/app/models/re_artifact_properties.rb:6:in `
class:ReArtifactProperties>

The re_artifact_properties.rb has

```
scope :without_projects, :conditions => ["artifact_type != ?", 'Project']  
with class ReArtifactProperties
```

I tried running rake command with scope :without_projects, {:conditions => ["artifact_type != ?", 'Project']}

but still i get the same error.

I use the following plugins:

easy_wbs
issue_charts
redcase
redmine_code_review
redmine_dashboard
redmine_image_clipboard_paste
redmine_issue_evm
redmine_re
redmine_remote_revision_url
redmine_sidebar_toc
redmine_subtask_list_accordion

Kindly help

You should contact plugin author. Here you'll receive support only for Redmine core (without any plugin installed).
