

Redmine - Defect #19254

Ruby requirements in installation instructions not updated

2015-03-03 13:54 - Henning Kröger

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Documentation	Estimated time:	0.00 hour
Target version:		Affected version:	3.0.0
Resolution:	Fixed		
Description When upgrading to Redmine 3.0.0 we found out that the table with the required Ruby versions (http://www.redmine.org/projects/redmine/wiki/RedmineInstall#Ruby-interpreter) is outdated. In my opinion all released versions should be covered by the table. Like mentioned in the news (http://www.redmine.org/news/95) Redmine 3.0.0 requires ruby 1.9.3. It looks like the row "current trunk" already contains the correct data for Redmine 3.0.0. Or maybe i just interpreted the table wrong?			

History

#1 - 2015-03-04 02:12 - Go MAEDA

- Category changed from Documentation to Website (redmine.org)
- Status changed from New to Closed
- Resolution set to Fixed

I have updated the table. Thank you for pointing it out.

- Add Redmine 3.0
- Drop Redmine 2.4 / 2.5 (these versions are no longer supported.)

#2 - 2015-03-04 02:14 - Go MAEDA

diff:
