Redmine - Defect #19405

Setting config.logger.level in additional_environment.rb has no effect

2015-03-17 11:07 - Scott Macpherson

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:	Jean-Philippe Lang		**% Done:**	0%
Category:	Rails support		**Estimated time:**	0.00 hour
Target version:	3.0.2			
Resolution:	Fixed		**Affected version:**	3.0.1

Description

Since version 3.0.0 my production log files contain INFO messages and higher, despite setting a Logger level of ::WARN in additional_environment.rb.

Using the advice provided in **RedmineInstall** my config/additional_environment.rb contains the following two lines:

```
config.logger = Logger.new(Rails.root.join("log",Rails.env + ".log"),3,5*1024*1024)
config.logger.level = Logger::WARN
```

Environment:

```
Redmine version    3.0.1.stable
Ruby version       2.2.1-p85 (2015-02-26) [x86_64-linux]
Rails version      4.2.0
Environment        production
Database adapter   PostgreSQL
```

Associated revisions

Revision 14155 - 2015-03-22 10:26 - Jean-Philippe Lang

Fixed that setting config.logger.level in additional_environment.rb has no effect (#19405).

Revision 14205 - 2015-04-25 09:34 - Jean-Philippe Lang

Merged r14155 (#19405).

History

#1 - 2015-03-22 09:54 - Jean-Philippe Lang

- Category changed from Ruby support to Rails support

- Status changed from New to Confirmed

- Target version set to 3.0.2

Yes, this is due to r13899. The level set in environments/production.rb takes precedence over config/application.rb and thus additional_environment.rb. As a workaround, you can set it environments/production.rb.

#2 - 2015-03-22 10:27 - Jean-Philippe Lang

- Subject changed from config.logger.level in additional_environment.rb has no effect to Setting config.logger.level in additional_environment.rb has no effect

- Status changed from Confirmed to Resolved

- Assignee set to Jean-Philippe Lang

- Resolution set to Fixed

Fixed in r14155.

#3 - 2015-04-25 09:34 - Jean-Philippe Lang

- Status changed from Resolved to Closed
